

March 24, 2017

To whom it may concern:

This is to confirm that Edgenuity, Inc., 8860 East Chaparral Road, Scottsdale, Arizona 85250 has sold the following specific software services to Renzulli Learning, Inc., a subsidiary of Legacy Partners International, Inc., dba LPI Learning:

Renzulli Learning System; Renzulli Profiler™; Renzulli Enrichment Resource Search; Renzulli Learning Wizard Project Maker; Renzulli Learning PSP®; Renzulli Differentiation Engine™; Renzulli Lesson Library®; Renzulli Score Booster®; Renzulli Next-Book®

This software was called Renzulli Learning from its founding in 2005 until 2015, at which time Compass Learning renamed the software GoQuest. These were originally developed by Dr. Joseph S. Renzulli, of the University of Connecticut.

This sale brings Renzulli Learning back to its original design, purpose and pedagogy.

GoQuest was owned until recently by Compass Learning, an Austin, Texas based K-12 software provider. In July 2016, Compass Learning was acquired by Edgenuity.

Edgenuity will continue to service GoQuest obligations with its existing customers through the current contract terms, but only until September 30, 2017, at which time GoQuest will be retired.

These are now owned, developed, and published as a package exclusively by LPI Learning, Inc. headquartered in New Haven, Connecticut. Their EIN is 47-2235040.

Sincerely,

Edgenuity, Inc.
